

# modernize patient financial assistance with an automated solution for hospitals

# reasons we outperform competitors

### Full-cycle management

From identifying eligible patients to submitting application to processing payment.

no extra burden for your team

#### Fast setup

In days, not weeks. Our no-code integration means low or no IT involvement.

## Reduce administrative burden

Patient advocacy teams don't need to do something extra, and you don't need new resources to use us.

#### Work with your workflow

We submit to your back-office and collections AND offer patients direct access to co-pays and drug payments.

#### Automatic and non-stop

Our software scans over \$30B in funding including co-pays and coverage for drug therapy.

More matches, more funding won
